

Seeking The Light: Adelaide Truly An Experience

Shareena Bibi Mohd Arif

Hospital Tengku Ampuan Rahimah, Klang, Malaysia.

The Malaysian Nursing Department is committed in developing skilled nurses with highly qualified managerial and clinical expertise to spearhead various tertiary hospital management divisions. Fortunate enough, through rigorous screening and interview processes by the Ministry of Health Malaysia, a full Government Scholarship was awarded to three nurses to pursue Masters and PHD in Nursing abroad to fulfill this aspiration. I was extremely motivated to take up this challenge as part of my vision to further develop my knowledge and clinical skills in Orthopaedic Nursing and was selected to pursue my study at the University of Adelaide.

The Adelaide Nursing School offers world-class quality nursing practice through excellence in student centred integrated learning and teaching, and research.

It had helped me to actively contribute to the nursing profession and community and; to provide a supportive and productive work environment. Therefore, I would like to share my experiences with you.
