WELCOME MESSAGE

from Congress President, Dr Suthorn Bavonratavech

Dear Friends

It is with great pleasure that the Asia Pacific Trauma Society and the Thailand Orthopaedic Trauma Association invite members of the international orthopaedic fraternity to Amazing Thailand, to attend the 7th APOA Trauma Congress in conjunction with the 1st Meeting of the APOA Foot & Ankle Section.

This scientific extravaganza is not to be missed as it will cover a diverse range of topics on upper limb, lower limb, paediatric, foot & ankle and pelvic trauma. The Organising Committee has gathered a team of experts from around the world to speak at the meeting. Our committee has worked hard to prepare a unique and exciting selection of topics within the different sub-specialities in trauma care

and infection management. The lectures and symposia will provide all delegates with information that is most relevant on the international orthopaedic stage.

The meeting will be held at the newly opened Hyatt Regency Hotel located at the central shopping district of Sukhumvit, Bangkok. There will be many social and cultural events, optional tours and shopping at the various famous Bangkok markets.

We look forward to seeing you and your family at the Meeting – you will be glad that you came to enjoy the scientific and cultural extravaganza, local cuisine, shopping and the warm Thai hospitality.

WELCOME MESSAGE

from Congress Organising Secretary, Dr Jamal Ashraf

Dear Friends,

It is my great pleasure to welcome you to the 7th Biennial Congress of the Asia Pacific Trauma Society (APTS 2019), and the 1st Scientific Meeting of the APOA Foot & Ankle Section, which will be held in Hyatt Regency, Bangkok, Thailand from September 20-22, 2019.

This mega event has attracted global leaders to participate and exchange expertise and to launch brilliant new ideas together. The scientific programme will focus on Symposia and Instructional Lectures given by distinguished speakers from across the world. It would, however, be incomplete without your participation, without free paper presentations and E-posters. We encourage all of you to submit abstracts of your work so that we can put together an exceptional scientific programme.

This meeting is designed to interact with the experts from all over the globe to share and enhance knowledge on the latest international research and developments in the field of orthopaedic traumatology and for interaction among peers. Apart from the invigorating scientific programme, this meeting will also offer its attendees an unforgettable cultural experience.

I would like to extend my sincere invitation to you all to join me in Bangkok. I am sure that this scientific extravaganza will advance orthopaedic knowledge and forge new friendships. I look forward to meeting you in September 2019 in the “Land of Smiles”.

LOCAL CUISINE

Thai food is one-of-a-kind and a must to try when in Bangkok. From tom yum to green curry to mango sticky rice, they are mouth-watering and for a very good reason. Local Thai cuisine can be found anywhere such as in Chinatown and Victory Monument.

SHOPPING

From small market to shopping malls, from designer clothes to bargains, the only issue one may find while shopping in Bangkok is having to choose among the millions of inviting items to buy. Head straight to Chatuchak Market or the nearby Terminal 21 to shop 'till you drop!

WAT PHO

Wat Pho (the Temple of the Reclining Buddha), or Wat Phra Chetuphon, is located behind the Temple of the Emerald Buddha and a must-do for any first-time visitor in Bangkok. It's one of the largest temple complexes in the city and famed for its giant reclining Buddha that measures 46 metres long and is covered in gold leaf.

108 is a significant number, referring to the 108 positive actions and symbols that helped lead Buddha to perfection. You'll need to take your shoes off to enter, and if you would like a little good luck, we recommend purchasing a bowl of coins at the entrance of the hall which you can drop in the 108 bronze bowls which line the length of the walls.

GRAND PALACE

The palace at one time was the king's home as well as the place where the government of Thailand carried out their work. Nowadays, the Grand Palace is used for ceremonies, and it is mostly seen as a tourist attraction. There is a strict dress code enforced at the Grand Palace, and you will not be allowed inside if you are not dressed appropriately. Also, be aware of potential scams when outside the palace and only pay the entrance fee when you are actually going in!

EXPERIENCE BANGKOK

Located in Southeast Asia, Thailand is well-known for its melting pot of culture and scrumptious local delicacies. The capital city, Bangkok, is a modern city, vibrant with colours and street life.

Here are some attractions you would not want to miss in Bangkok!

BANGKOK TRAVEL TIPS
